

**SRWG on shared demersal resources**  
**Ad hoc scientific working group between Morocco and Spain on *Pagellus bogaraveo* in the Gibraltar Strait area**  
Málaga, Spain, 22 July 2010

---

**Tentative Agenda**

**Session 1.**

Morning, 9-13:30

- 1. Opening of the meeting and election of chairperson and reporters.**
- 2. Adoption of the Agenda.**
- 3. Objectives of the meeting.**
  - ✓ Introduction (by the CopeMed II Project coordinator)
- 4. Morocco's report on *P. bogaraveo*.**

Report Part 1. (The INRH experts should prepare it)  
The report part 1 should include updated information and knowledge on:

  - ✓ The biology of the stock (biological parameters: reproduction, growth, feeding habits; stock units identification; migrations).
  - ✓ Fisheries of the species: fleets and gears; historic evolution and status; bycatch.
  - ✓ Fishing statistics: Catch and effort parameters; size distribution in the captures

Report Part 2. (Prepared by ¿DG Pêche, ONP?)  
The report part 2 should include updated information and knowledge on:

  - ✓ Fleets and Fisheries,
  - ✓ Control systems (at sea and during landings) and related legislation.
  - ✓ Product conservation, markets, commercialisation and related legislation.
  - ✓ Identification of the product: labels and other measures
- 5. Spain' report on *P. bogaraveo***

Report Part 1. (The IEO experts should prepare it)  
This report part 1 should include updated information and knowledge on:

  - ✓ The biology of the stock (biological parameters: reproduction, growth, feeding habits; stock units identification; migrations).
  - ✓ Fisheries of the target species: fleets and gears; historic evolution and status; by catch).
  - ✓ Fishing statistics: Catch and effort parameters; size distribution in the captures

Report Part 2. (The Junta de Andalucía experts should prepare it)  
This report part 2 should include updated information and knowledge on:

  - ✓ Fleets and Fisheries,
  - ✓ Control systems (at sea and during landings) and related legislation.

- ✓ Product conservation, markets, commercialisation and related legislation.
- ✓ Identification of the product: labels and other measures

**6. Stocks assessment methodologies. Stocks assessment presented to ICES, GFCM, and other scientific Committees.**

- ✓ Assessment methodologies used by ICES and GFCM.  
(The IEO should prepare a summary of the methodologies currently used by ICES to assess *P. bogaraveo*)  
(The INRH should prepare a summary of the current methodologies used by the SAC-GFCM)
- ✓ Status revision according the last stock assessments.
  - Revision of the status of *P. bogaraveo* in the Gibraltar strait area and last assessment by ICES ( J. Gil, IEO)
  - Revision of the status of *P. bogaraveo* in the Mediterranean.  
(CopeMed II, in collaboration with the INRH and the IEO should prepare a summary of the assessment presented to the SAC, if any)
- ✓ Critical areas for *P. bogaraveo* within the subregion. (Information and a list of useful documents should be prepared by the experts from the each country on migration, reproduction, juveniles and nursery areas and other ecological aspects)

**Session 2**

Afternoon, 15-17:30

**7. Data needs for a future joint stocks assessment for management purposes**

- ✓ Statistics
- ✓ Biology and Biological parameters

**8. A joint research programme for *P. bogaraveo* in the Gibraltar strait area? What we needs? What we have?**

**9. Recovery and/or management plans implemented for *P. bogaraveo***

- ✓ Management plans: General overview
- ✓ Present or past management or recovery plans: situation and results in Morocco and Spain (Information on each country provided to the meeting by the experts)
- ✓ Needs for a joint management/recovery plan

**10. Other matters**
