NEXT EVENTS

Malaga, Spain. April 29 and 30, 2010.

CopeMed II meeting on the definition of priority topics related to shared resources (demersal and small pelagic) in the subregion in Malaga.

Following the indications of the Coordination Meeting and the GCFM, CopeMed II will start the organisation of the working groups of demersal species and small pelagic of the CopeMed II Subregion.

The DWG&SPWG (Demersal Working Group & Small Pelagic Working Group) should be established within the Project Immediate Objective 2: Strengthening the fisheries scientific research and upgrade the research activity in the national and international context.

The meeting has the practical and operative objectives of:

- Identifying and defining shared demersal/small pelagic resources and related fisheries of the subregion;
- Considering the available information and knowledge on how these resources are shared between countries/fishing fleets;
- Reviewing and highlighting the gaps in the scientific knowledge of shared stocks which are relevant for their management;
- Proposing of subregional scientific cooperation' activities to be carried out within the framework of CopeMed II.

The meeting should be attended by:

- Fisheries research managers of the national research institutions and relevant scientist from each country participating in the Project (nominated by the national Focal Point)
- FAO-CopeMed II staff
- FAO FIRF officers
- GFCM Secretariat
